SUMMARY

Innovative Full Stack Web Developer with one year of specialized experience in the Fintech sector. Expert in building secure, scalable applications using the MERN stack and React.js. Proven track record of developing complex systems, including a blockchain-based voting portal and a custom programming language. Passionate about delivering high-performance UI/UX and seamless API integrations for global banking solutions.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3.
- **Backend:** Node.js, Express.js, PHP.
- **Languages:** Python
- **Databases:** MongoDB, SQL.
- **AI Tools:** Claude, Cursor, Github Copilot
- **DevOps & Other Tools:** GitHub, Postman (API Expert), Canva.

PROFESSIONAL EXPERIENCE

Fable Fintech | React.js Developer | April 2025 – April 2026

- Develop and maintain secure, responsive web applications for **international banking and fintech platforms**.
- Contributed to major projects including **Axis Remit Money** and **DTBK Bank Remit Money**, focusing on cross-border financial transactions.
- Optimize UI/UX performance and ensure seamless API integration for real-time, reliable user experiences

Mgrid Technologies | Full-Stack Developer Intern | July 2024 – April 2025

- **Full-Stack Developer** specializing in the **MERN stack** to build scalable, secure web applications.
- **Developed a Job Portal**, managing the end-to-end creation of a recruitment system.
- Collaborated with teams to implement **best coding practices**, optimizing for speed and seamless integration.

PROJECTS

SecureVote (Blockchain Voting Portal) | Jan 2026 – March 2026

- Architect a **online voting system with blockchain-based verification** to ensure transparent, tamper-proof remote elections.
- Implemented **OTP authentication, role-based access, and location-based user segregation**.
- Integrated real-time monitoring and multi-layer security to prevent unauthorized data breaches.

Tech: React, Node.js, PostgreSQL, Blockchain

Grammar Checker Libs (React Library) | Aug 2025 – Oct 2025

- Developed and published a reusable **React library for real-time grammar checking** in web applications.
- Integrated a **Java Language Tool** backend with a **Python server** for fast, privacy-friendly error detection.
- Provides real-time suggestions and automatic corrections to enhance user writing accuracy.

Tech: React, Python, LanguageTool

InstaAmi (Social Media Platform) | Dec 2023 – Feb 2024

- Built a community-driven social platform using the **MERN stack**.
- Designed features to foster vibrant interaction, creative expression, and seamless content sharing.

Tech: MongoDB, Express, React, Node.js

EDUCATION

- **Master of Science in Computer Science** | S.I.E.S. College of Arts, Science and Commerce | (2024 – 2026)
 - **Bachelor of Science in Computer Science** | S.I.E.S. College of Arts, Science and Commerce | (2021 – 2024)
-

CERTIFICATIONS

- **Software Engineering Job Simulations:** J.P. Morgan & Walmart.
 - **API & Backend:** Postman API Student Expert, Node.js & Express (GDSC).
 - **DevOps:** Learn DevOps for Web Development (AWS).
 - **Python:** The Joy of Computing Using Python.
-
